EUROMIL participated in the Expert Meeting on Human Rights Monitoring in the Armed Forces, organised by the Office for Democratic Institutions and Human Rights of the OSCE (ODIHR) on 4-5 March 2013 in Warsaw.

Twenty-four participants from eighteen countries of the OSCE region representing the civil society, academia, ombudsman institutions, military associations, EUROMIL and ODIHR gathered together to share experiences and best practices in monitoring and protecting the rights of armed forces personnel.

The relevance and importance of military associations in human rights monitoring was highlighted by Caroline Henrion, EUROMIL Project Officer, as well as representatives from EUROMIL Portuguese, Spanish and Italian member associations. The idea of military associations and their usefulness not being much developed further east in the OSCE, it was interesting for participants from these countries to hear more about military associations. The meeting was also the opportunity to raise the voice of soldiers at international level and increase EUROMIL's visibility.

ODIHR's Human Rights, Gender and Security Programme, works with the OSCE's 57 participating States to mainstream human rights and gender in the security sector.

ODIHR meeting examines role of monitoring in ensuring respect for human rights of security sector personnel

The importance of monitoring the armed forces to ensure that the human rights of security sector personnel are protected was the focus of a two-day meeting in Warsaw, organized by the OSCE Office for Democratic Institutions and Human Rights (ODIHR) on 4 and 5 March 2013.

Twenty-four representatives from civil society, military associations, ombudsman institutions and academia from across the OSCE region shared experiences and good practices in monitoring and protecting the rights of service personnel.

“External and independent monitoring of human rights compliance in the armed forces helps to foster security and safety, not fear,” said Snježana Bokulić, the Head of ODIHR’s Human Rights Department.

Andrey Kuvshinov, a Research Officer at the London School of Economics, noted that “effective monitoring can raise awareness of the need to discontinue practices that amount to violations of the human rights of armed forces personnel”.

Participants also underlined the importance of international co-operation and networks in the effective monitoring and protection of these rights.

The meeting will be followed by a one-day training session for civil society representatives on identifying and reporting on gender-based discrimination in the armed forces.

The events are organized as part of ODIHR’s Human Rights, Gender and Security Programme, which works with the OSCE’s 57 participating States to mainstream human rights and gender in the security sector.

Le droghe sono cari, è per questo che alcuni pazienti non possono comprare le medicine di cui hanno bisogno. Tutti i farmaci di sconto risparmiare denaro, ma a volte le aziende offrono condizioni migliori rispetto ad altri. Circa il venti per cento degli uomini di età compresa tra 40 e 70 non erano in grado di ottenere l'erezione durante il sesso. Ma non è una parte naturale dell'invecchiamento. Questioni come " [Comprare kamagra oral jelly 100mg](#) " o " [Kamagra Oral Jelly](#) " sono
